

Dear Parents/Carers

It has been lovely hearing so much Spanish being spoken around the school already! Ask your children what they have been learning in Spanish and how they have learnt these things. You will be surprised by what they can tell you!

For more details, please look at our Knowledge Organisers, which have sound files of native speakers. This can really help with your pronunciation. These are available on our Class Dojo pages.

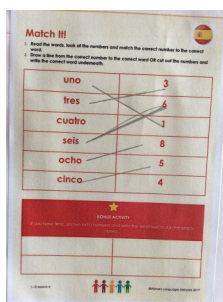

Miss Bill

Lower Key Stage Two

In Lower Key Stage Two we have focused on all four areas of Spanish - listening, speaking, reading and writing.

This Autumn Term we have been learning how to greet someone in Spanish and how to say the colours and numbers to ten. We have played games and learned songs to practise our vocabulary and pronunciation. We have also explored Spanish phonics, and how some of the sounds are slightly different to the English.

St Anne's Spanish Newsletter

Upper Key Stage Two

In Upper Key Stage Two we are also focusing on speaking about ourselves and asking questions about others. We have learned how to hold a conversation with other people to tell them about ourselves: our name, age, where we live and our favourite things. We are beginning to speak about our day in school and name our subjects in Spanish. We have begun to use bilingual dictionaries to translate new words into Spanish.
